

Villas Sirenas News

Project Update

Construction is progressing very well for Villas Sirenas. As you can see from the photos to the right, concrete is being poured for the first floor walls, and ceilings. Our projected date for the opening of the model condo is December 1, 2005. The showroom construction is nearing completion. Target date for it's opening is sometime in October. The showroom will offer samples of interior choices such as flooring and countertops.

Studio V Interior Designers

Swaback Partners is pleased to announce that Katherine L. Pullen has joined their staff as Studio V's Director of Design. Katherine comes to Swaback Partners and Studio V with over 16 years of interior design experience in the areas of residential, hospitality and commercial involvement.

Katherine played a key role in the interior design of hospitality projects affiliated with vacation club ownership properties in Phoenix, Sedona, and Estes Park, Colorado.

For the last several years, Katherine has been solely involved with a well-respected active adult home builder specializing in high-end model home merchandising, residential, multi-family, and commercial interior design in multiple master planned communities in both Arizona and Texas.

Katherine's skills are second only to the spirit of passion that she brings to everything she touches.

We are very excited to have her wealth of knowledge and design creativity to the development of Villas Sirenas..

September in San Carlos

September is a quite month in San Carlos. You won't find as many tourists during this month as you would the summer months.

The weather is still beautiful with the average temperature about 87 degrees. Fishing and scuba diving are fantastic all year long in San Carlos.
